

Digital Honor Roll Display

One of our most prominent and popular displays, the Honor Roll of Charter Members includes a listing of hundreds of thousands of heroes who contributed to the war effort on the front lines or at home. Only active Charter Members can have names added to the listing in tribute to their loved ones' service and sacrifice.

The striking digital display—more than 10' in height—features an interactive touch screen visitors can use to search for an Honoree by name, home city and state, or branch of service.

All names on the Honor Roll of Charter Members are also listed in a database on the Museum's website, searchable by anyone at any time. If you haven't already looked, please visit www.nationalww2museum.org/give/honor-roll-charter-members.
